1. The innovative technologies and solutions to be developed, demonstrated and validated by Shift2Rail are perfectly aligned with the key objectives of the EU 2020 Strategy and the EU Transport policy. Shift2Rail is the first European initiative to deliver focused Research & Innovation (R&I) and market-driven solutions, meeting the highest level of the EU 2020 Strategy and the single European Transport Policy.

2. Why launch such a large-scale EU research initiative?

The European Council press release for the Shift2Rail Joint Undertaking regulation, " The Innovative Technologies and Solutions to be Developed, Demonstrated and Validated by the Railway System of Tomorrow " (2014/431/REG) is available on the website of the European Commission. For more information and updates on Shift2Rail, visit the website.

3. What will Shift2Rail concretely deliver?

What will Shift2Rail concretely deliver?
