

Curriculum Vitae

Edel, Roland

CURRENT POSITION

Roland Edel has been **Chief Technology Officer and Head of Technology & Innovation at Siemens AG's** Mobility & Logistics Division in Munich since 2011. Since October 2014 the Division is conducted under the name Mobility and since 2018 the Division is operated as own legal entity Siemens Mobility GmbH, 100 % owned by Siemens AG.

PROFESSIONAL BACKGROUND

After joining Siemens AG in Erlangen in 1993 as a design and development engineer at Transportation Systems, Roland Edel went on to assume various managerial roles within the former Electrification Division between 1996 and 2003. From 2003 onwards he was responsible for Engineering, Development and Product Management within the Business Unit Rail Electrification for five years. Roland Edel subsequently took charge of engineering and development within the newly formed Business Unit Turnkey, Electrification and Transrapid in Erlangen, before moving on to assume the position of Chief Technology Officer and Head of Innovative Mobility Solutions in the Business Unit Complete Transportation in 2009.

EDUCATION AND TRAININGS:

After passing his final secondary school examination, he studied Power Electronics at Friedrich-Alexander University in Erlangen from 1987 to 1993, graduating as an engineer (Dipl.-Ing.).
