

Curriculum Vitae

TOURNIER, Ny Tiana

CURRENT POSITION

European Union Agency for Railways

Innovation and Technology Coordinator

PROFESSIONAL BACKGROUND

Before joining the Agency, Mrs Tournier held several management and technical-related positions in the private sector. From 1988 to 2005, she worked as Research and development engineer, Quality manager, Financial controller, Reorganisation manager and Technical director.

She joined the Agency in 2005 and worked on the setting up of the European Centralised Virtual Vehicle Register. Following that she worked on the revision of the Technical Specifications for Interoperability for freight wagons in order to close open points. She was Head of Authorisation processes and worked with the EC, the Member States and the National Safety Authorities towards the definition and implementation of a common approach to the processes for vehicle authorisation for the preparation of the 4th Railway package. She was Head of Policy and coordinated the Agency's research activities. Since 2021, she has been the Agency's Innovation and Technology Coordinator.

EDUCATION AND TRAININGS:

2004 - Executive Education on Finance – HEC Paris

1992 - Executive Education on Cost control management – ESCP Paris

1988 - Engineering degree from Ecole Centrale de Lyon (a leading French engineering school)

1986 - Masters degree on Materials Sciences from University of Lyon

EXTRAS:

She drafted several reports and recommendations used as basis to prepare EU Legislation relating to:

- the Registration of railway vehicles
- the revision of the wagon TSI
- the Authorisation of railway vehicles
