

RAILS FINAL EVENT

30th May 2023 via Microsoft Teams

Final Workshop (13:00-15:05 CEST): To present and discuss the overall research outcomes of the RAILS project.

Roadmapping Event (15:15-17:00 CEST): An interactive session with railways stakeholders through a real-time survey, with the aim to have their invaluable contribution to a roadmap for the effective integration of artificial intelligence in railways.

UNIVERSITY OF LEEDS

Linnæus University

TU Delft

**Overall research
outcomes of RAILS**

**Interactive session
with stakeholders**

**AI for rail safety &
automation**

**AI for predictive
maintenance &
defect detection**

**AI for traffic planning
& management**
