

Curriculum Vitae

Mikulandra, Michael

CURRENT POSITION

Name of company

Kontron Transportation Deutschland GmbH

Job position

Head of Products

PROFESSIONAL BACKGROUND

Joined Nortel Networks and held various positions in Research & Development, product management and product marketing for the European telecommunication market with focus on core network solutions and application & services. With the divestiture by Kapsch CarrierCom Michael became part of the customer solution management team and moved into system architecture with responsibility on standardization activities and regulatory bodies engagements. In Kontron Transportation he is heading the products organization, which covers product management, architecture and standardisation & regulatory activities.

EDUCATION AND TRAININGS:

Computer Science at TH Karlsruhe, Germany

EXTRAS:

Michael is currently chairman of the UNITEL committee within UNIFE and represents the committee in various stakeholder meetings and related initiatives.

He also acted as representative of Kapsch (and later Kontron) within the Shift2Rail Joint Undertaking and initially led the technology demonstrator activities for the adaptable communication system (TD2.1).
